TREATY RATIFICATION SOON WITH RESERVATIONS LIKELY

STATE OFFICERS ISSUE WARRANTS FOR PROFITEERS

Announcement Made by Governor Cox and Attorney General Price.

Will Ask Federal Officers to Confiscate 2,500,000 Pounds of Meat and Poultry.

Warrants to Several Ohio Cities for Accused Dealers.

(By Associated Press.)

Columbus, O., August 15.

Forty warrants charging Ohio food dealers with food hoarding and profiteering were issued by the State of Ohio today, and arrests will be made immediately, according to Governor Cox and Attorney General Price. In addition, Governor Cox announced that he will ask federal authorities to confiscate approximately 2,500,000 pounds of meat and poultry which have been held in cold storage houses longer than the period allowed by the Ohio law.

One third of the warrants issued were against Columbus men, and it is said that some of the other warrants are chiefly against Cleveland dealers.

The warrants will be filed in the municipal courts of the cities in which the men live. The out of town arrests, it was said, may not be made until tomorrow, or possibly the following day.

U. S. AUTHORITIES WILL GIVE AID

(By Associated Press.) Washington, August 15.—Every effort will be made to assist Governor Cox of Ohio in his campaign to put on the market foodstuffs now held in storage in that state, it was said today at the Department of Justice.

The announcement was made after receipt of a telegram from the Governor asking federal aid in the seizure of large quantities of food held in Ohio and in the prosecution of persons responsible for withholding it from the market.

VETO AGAIN FOR REPEAL OF DAYLIGHT SAVING LAW

President Refuses to Sanction Repeal Expressing Reluctance.

Realizes a Number of Farmers Oppose Present Law.

(By Associated Press.) Washington, August 15.—President Wilson today vetoed the bill repealing the daylight saving law.

The President said he returned the bill without his approval with utmost reluctance because he realized the very considerable and in some respects, very serious inconvenience to which the daylight savings law subjects the farmers of the country.

Declaring the pressing need of the country was for production by industry, the President said he had been obliged to "balance one set of disadvantages against another and decided which was the more serious for the country."

WARRANTS ARE FILED WITH POLICE COURTS

Penalty for Conviction of Charges is a Severe One.

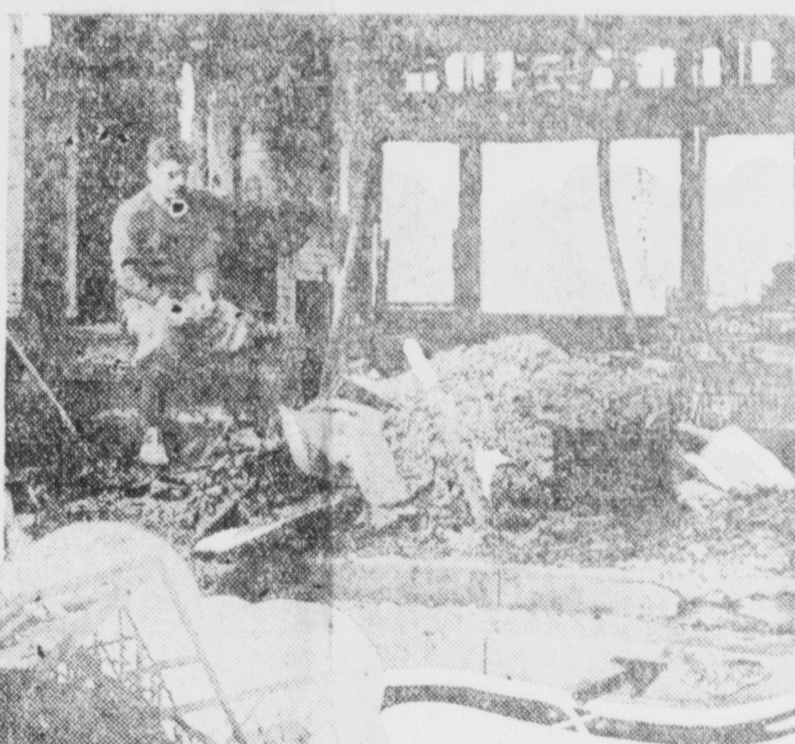

(By Associated Press.) Columbus, O., August 15.—The warrants for the arrest of alleged food profiteers were filed in municipal court. All warrants are based upon the Smith cold storage law, enacted in 1917.

First violations are punishable by a fine of not more than \$500; and for each subsequent offense, a fine not to exceed \$1000 and a jail sentence of 30 to 90 days.

A statement issued by Governor Cox says the complaints are based primarily upon the operation of cold storage plants without licenses, the hoarding of foodstuffs over the period stipulated by law and the defacement of, and destruction of, records which would show the time the supplies were in storage.

HOW BOMB WRECKED LOS ANGELES HOME OF OSCAR LAWLER

These pictures show graphically the result of the latest bomb outrage perpetrated against prominent men in the United States in recent months. They show the ruins of the home of Oscar Lawler in Los Angeles, Cal. Lawler was formerly assistant U. S. attorney general for the interior department. A gasoline bomb was placed on the rear porch of his home on August 3. The explosion wrecked the house and in the blaze that followed Lawler, his wife and three children were seriously burned. Two other children happened to be away from home at the time. Revenge is thought now to have been the cause for the bombing. Lawler recently acted as an attorney in a case in which a will was contested. Lawler succeeded in breaking the will. A man in

View of wrecked home and close-up of rear porch below Oscar Lawler's sleeping porch. Arrow points to spot on steps where bomb was placed.

The case was arrested shortly after the explosion. Lawler, while U. S. district attorney for southern California, was active in prosecuting dynamiters in the middle west, and it was thought at first that the bomb might have been placed by some of these men.

The explosion occurred at 3 a. m. Police learned later that a man stopped at the Lawler home in an auto, ran to the house and then drove away. Passersby aided in getting the Lawler children out of the building.

SERVICE IS HALTED ON ALL LINES OF THE O. E.

Traffic at Standstill on Every Division of the Ohio Electric

500 TRAINMEN STRIKE

Passenger Service Also Halted in Number of Cities.

(By Associated Press.)

Columbus, O., August 15.—Service over practically every division of the Ohio Electric Interurban Railway came to a complete stop this morning, when 500 trainmen went on strike, demanding an increase in wages.

According to an announcement by the railway officials, the company will not endeavor to run cars pending a settlement.

The strike stopped city street car service in several Ohio cities, including Zanesville, Newark and Lima. The lines between Dayton and Cincinnati and Dayton and Indianapolis were

not affected, train men on these two divisions being unorganized.

The trainmen asked an increase in wages of 10 cents an hour, over time pay for over ten hours work, and recognition of miscellaneous men as members of the union.

Company officials offered to increase wages of the trainmen three cents an hour. They now receive 42 to 45 cents an hour.

STENOGRAPHERS TO TAKE NOTES OF CONFERENCES

President Informs Senator Lodge That Record Will be Kept.

For Accuracy in Future Discussion of What is Said.

(By Associated Press.)

Washington, August 15.—Stenographic records will be made of the conference between President Wilson and the Senate Foreign Relations Committee at the White House next Tuesday for discussion of the peace treaty.

Chairman Lodge was so informed in a letter from the President, made public today. The President said he would have a stenographer present, in order that the committee might have a "full and trustworthy record of what is said," and suggested that the committee also have a stenographer present.

It was understood that the official transcript would be made public.

CHICAGO PACKER AGENTS SERVED WITH WARRANTS

Charge of Hoarding Food to Effect Supply and Market Price.

(By Associated Press.)

Columbus, O., August 15.—Some of the warrants are against some of the local managers of the Chicago packing companies.

Governor Cox in his telegram to Attorney General Palmer says evidence has been uncovered by inspectors of the State Dairy and Food Departments that some of the big Chicago packing companies have shipped food into the state and again back to Chicago and again shipped it into the state for the "double purpose of deceiving the authorities of Ohio and Illinois and keeping food necessities off the market in order that deficiency and higher prices might come together."

On this alleged showing the Governor asks the Attorney General to bring criminal prosecution, offering evidence gathered by Ohio officials.

More Than Twenty Republicans Senators Ready, Democratic Leaders are Informed.

Prospect That Treaty May be Brought From Committee

Administration Leader Hitchcock is Silent on Subject of Reservation.

(By Associated Press.)

Washington, August 15.—More than 20 republican senators are ready to stand for quick ratification of the peace treaty with reservations, democratic leaders in the Senate were informed today by leaders of the republican group of reservation advocates.

Republicans favoring reservations said a poll disclosed that upwards of 30 senators of their party would support reservations along the general lines laid down by the seven republicans if the treaty could be brought promptly out of committee and ratified on that basis.

Although Senator Hitchcock, the administration leader, still disclaimed any part in the negotiations, it was apparent the move had reached proportions which might threaten the plans of the committee for calling additional witnesses and prolonging consideration of the treaty.

Senator Hitchcock had an appointment to see President Wilson late today and expected to lay before him the entire Senate situation especially as regards prompt committee action.

The administration leader declined to say whether he would suggest a change in the announced stand of the administration against reservations.

CLEARING OUT REBEL CENTERS

(By Associated Press.)

Mexico City, July 28.—(By Mail).—General Francisco Murguía, in charge of federal forces in the states of Tamaulipas, Coahuila and Nuevo Leon, has reported to President Carranza that the former rebel strongholds in the southern part of Nuevo Leon have been cleared and the country pacified. He declared that towns of Iruya, Zaragosa, Aramberri and Noreiga, which have been held for some time by the rebels, are now in his possession. The reconstruction of railroad, telegraph and telephone lines is now in progress, he reported.

"MIKE" HILLERY EASILY DOWNS HIS OPPONENT

Clever Work of Whitehead and Beavers Delights Audience at Armory.

Scrappy Boxing Bout Put On With Monroe Showing to Good Advantage.

Three fast bouts at the Armory Thursday evening furnished one of the best shows put on in this city in recent months. The bouts were run off in schedule time and were clean and snappy.

"Mike" Hillery, the local giant, easily beat Lawrence Link of Columbus in two straight falls, the first fall coming in 17 minutes and the second in two minutes and a half.

Jimmie Whitehead secured one fall from Cooney Beavers in 19 minutes in their thirty minute bout. The preliminary consisted of six fast rounds of boxing between Kid Brennan of Columbus and Young Monroe of Lima. The two boys stepped lively and received much applause from the fans.

The work of Hillery in his match with Lawrence Link of Columbus was another exhibition of the local boy's wonderful strength and growing science. Hillery had the Columbus lad on the defensive all the time and threw him the first time with a body scissor and arm lock in 17 minutes. The wrestlers had hardly started the second time when "Mike" put Link to the mat with an arm scissor and arm lock. The time was two minutes and thirty seconds.

Jimmie Whitehead had the better of his younger opponent in the thirty minute contest. Beavers was thrown in 17 minutes with an arm lock. Whitehead challenged Matsuda but the fans readily recognized the fact that he would not have even a shadow of a chance with the clever lightweight champion.

No more favorable impression was ever made on the fans than the work of Kid Brennan and Young Monroe. These two clever boxers were at it hammer and tongs all the way with honors about even, although Monroe showed the best foot work, and landed many effective punches.

Declares the new root and herb juice remedy, Dreco, eased the backache, relieved his stomach and constipation.

"I don't mind telling any body how much good this new medicine, Dreco, has done for me, for I am feeling so much better since I gave it a fair trial," stated Mr. R. L. Westcott of Harlem, Delaware Co., O. Mr. Westcott is a prosperous farmer and known all over the county, as a man of sterling character.

"I am 61 years old, and thought I was worn out, and would never feel well again. My kidneys bothered me day and night; liver was sluggish; my food did me no good, but laid in my stomach and soured, forming gas that swelled me up; my bowels were constipated and I had to take medicine for them nearly every night. Dizzy spells hit me sometimes and I had to quit what ever I was doing, and I always explain about this great medicine, Dreco, for it has done me worlds of good, and I am glad of a chance to publicly praise it."

THINK STOLEN AUTO WAS HERE

An automobile stolen from Rev. Roy B. Coleman, of Findlay, while he was in Rainsboro, a day or two ago, is believed to have been on the Fayette County Fair grounds Thursday, according to announcement made by friends of Rev. Coleman, and the authorities are now endeavoring to locate the missing car and thieves.

The machine suspected of being the stolen car contained four soldiers who, it is claimed, earlier in the day stopped at Lyndon and obtained gasoline and oil. At Lyndon, it is announced, the auto contained no license tags, and soon after leaving Lyndon the four men in uniform in the machine stopped and affixed license tags to the car.

The machine and the four uniformed men entered the Fair grounds early Thursday, and remained only a short time before leaving. Since that time no definite word has been heard from them.

It is further stated in connection with the theft of the car that a general store at Humboldt, between Greenfield and Bainbridge, was broken into Wednesday night, presumably by the men who had stolen the car at Rainsboro. A machine stolen from Greenfield earlier in the week was found abandoned near Rainsboro the morning after Rev. Coleman's car was stolen, indicating that the thieves had abandoned the one car and had taken the Coleman machine.

CHOICE TAKEN AS HOPEFUL

(By Associated Press.)

New York, August 15.—The election of William A. Appleton as president of the International Federation of Trade Unions at the recent congress of that federation in Amsterdam, is characterized as a hopeful sign, by the American Alliance for Labor and Democracy in a statement issued here. Mr. Appleton is described in this statement as constructive, progressive and democratic.

For years, says the Alliance, Mr. Appleton has been secretary of the General Federation of Trade Unions in England. In 1917 he visited the United States as head of a delegation representing the General Federation of Trade Unions. Pointing out that Mr. Appleton was nominated by Samuel Gompers to head the international labor movement, the Alliance statement adds:

"Mr. Appleton always has been a staunch friend of the American Federation of Labor and an ardent admirer of its policies and achievements. More than any other European leader of labor, he thinks in accord with Samuel Gompers. During the war Mr. Appleton was tireless in his work for victory."

The defense of "Hard Boiled" Smith seems to be that the great majority of men who passed through his camp escaped with their lives.

POOR WOMAN MAKES SACRIFICE

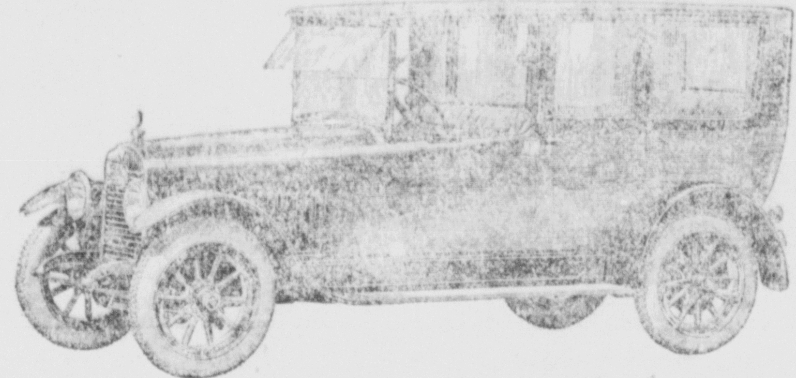

"For years I have doctored for indigestion and severe bloating with gas, all my money had gone for doctors and medicine which did me no good. I had lost all faith in medicines and as I have to work hard for the few dollars I earn was afraid to risk any more money. A year ago my neighbor told me to try Mayr's Wonderful Remedy. I have found it to be the best medicine in the world and am glad I made the sacrifice." It is a simple harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded.

LET US PROVE

Learn of Its Performance and Endurance as 10,000 Owners Know It

The Essex to You

Regard the Essex in the light of its service to some 10,000 owners.

What it is doing for people you know is an indication of how every Essex owner feels about this car.

Questions To Ask

Will the Essex passenger capacity meet your needs? The touring car and sedan each comfortably carries five. The roadster is for two, and has unusual capacity for luggage.

Car size, other than that of passenger capacity is unimportant. In the Essex it means greater driving ease and the opportunity of providing comfort, higher quality and greater performance at a moderate price and low operating cost.

Think how large the cars a few years ago compare with those of today.

The trend is toward smaller cars. The Essex is easier to drive, easier to park, costs less to operate, and is as comfortable to ride in as a large, costly car. The Essex marks the car of the future in respect to size, and it combines the wanted qualities of economy of the light car with the performance and endurance of the costly automobile.

How About Its Performance?

Every Essex owner knows he doesn't need to take the dust of any car. He can tour as fast or as far as any car will go. He has power for the hills—acceleration for every requirement.

Owners of large cars tell us their preference for driving the Essex. They travel faster because they can get under way so quickly. They can turn in narrow streets. They can

thread in and out of traffic. The Essex takes up so little room it can be parked in spaces too small for large cars, and it costs less when degree of performance and quality are considered. The Essex saves in gasoline and tires.

How About Its Endurance?

These are the records of 10,000 cars. Some have been driven as many miles as the average owner drives in two seasons. Ask the hard drivers how they consider Essex durability.

Ride in an Essex that has been driven several thousand miles. Learn how little attention is required to keep it in operating condition. Every owner will give you proof of endurance such as you would never expect of a car of its size or cost.

Look for Its Imitators Next Year

Essex success means next year's cars will be modeled after it. Look for its body lines, and other features in cars that will come out from now on. The Essex has filled the demand for a light weight car with performance and enduring qualities. It is not an old model modified to meet the trend toward lightness and economy, comfort and luxury. To get what the Essex has, requires a design that begins with one idea in view. A new trend in design is reflected in the Essex. It can not be met through the adaption of those principles that have been in vogue.

The Essex is the new word in motor cars. Its performance is proved everywhere and its endurance is unquestioned. Can there be any doubt, after such proof, that it is the car you want?

Ironton, O., August 14.—Mrs. Rozzie Flemmings is among the well known and highly respected residents of Ironton who are today publicly offering praise for Trutona, the perfect tonic. Mrs. Flemmings says:

"I was suffering from nervousness and stomach trouble. I didn't eat much and the little food I ate didn't digest properly. I was unusually constipated. A heavy feeling in my stomach almost invariably followed my meals. I was so nervous I couldn't sleep or rest well at night.

"Trutona has helped me in more ways than one. My appetite is a great deal better now and I thoroughly enjoy the food I eat. I've gotten rid of the heavy, annoying feeling in my stomach and I'm able to rest better at night now. Trutona is the best medicine for constipation that I've ever taken. It is alone worth the price in

this respect. It is so mild and pleasant in action, I feel better all over, since taking Trutona and I'm sure it will do others a lot of good.

FAIR GROUNDS UNDER CANOPY OF AUTO TOPS

Thursday's Attendance At
Annual Fair Pronounced
A Record Breaker.

Friday's Crowd Exception-
ally Good and Fair is De-
cided Success.

Gate receipts for Thursday show that the actual attendance at the fair for the day was fully 15,000 people—the largest attendance in recent years, and a half score of surrounding counties contributed liberally to the big attendance, with the usual large number of Fayette countians.

Never before has the fair grounds been so covered with parked automobiles and other vehicles, late comers finding it necessary to go to the far side of the grounds for adequate parking space, while several hundred machines were parked along the streets and roads leading to the grounds.

It was a good natured crowd, as usual, and a typical fair crowd, with an abundance of red balloons, whips, squawkers, whistles and even the time-honored pink lemonade.

Not only was the grandstand packed to the last seat, and every available foot of space along the course packed several deep, but the big crowd overflowed into the quarter stretch.

The sea of humanity was so dense about the grounds that it was necessary to move slowly from place to place.

The Art Hall, Agricultural building

and various other department buildings were jammed with humanity throughout the day.

Friday's Attendance. The Friday afternoon attendance was exceptionally good for the closing day, a great many assembling for the afternoon's racing program. A great many made another full day by going in the forenoon and remaining until evening.

Like the weather of Thursday, Friday was ideal for the event.

FAIR NOTES.

No accidents of a serious nature, so far as known, occurred on the ground during the big day.

The very small number of horse drawn vehicles was a noticeable feature.

During the rush at the gates automobiles were lined up for many squares along the various approaches.

The farm machinery, implements, automobiles and tractors exceeded all previous displays.

JUST ONE DRUNK FACES THE MAYOR

Out of the crowd of 15,000 people attending the fair, Thursday, only one arrest was made for drunkenness when Howard Lux, of Madison county, became disorderly at the gate and was promptly taken in tow by one of the fair policemen and Chief Moore, who placed him in the city lockup after some resistance.

The fellow cooled off in the "jug" at the city building and in the evening when friends applied for his release he was brought forth admitted that he had partaken too liberally of the forbidden malt, and drew the usual for such offense.

10 DISTRESSFUL YEARS FOLLOWED BY BODILY EASE

And Andrew Patterson Gives All the Credit to Nerv-Worth.

"For the past ten years I have suffered extremely from nervousness and stomach and bowel troubles. Was badly constipated and got no restful sleep. Kidneys in very bad condition and I suffered with severe pains in the small of my back. Mornings, when I got out of bed it required a great effort, as I was weak. Gas formed in my stomach and caused irregular heart action. I have spent a great sum of money doctoring and trying various remedies, but none did me any good until I purchased a bottle of Nerv-Worth and took it as directed. I immediately began to improve and now, after taking two bottles I am feeling fine and all the troubles mentioned have disappeared and I am strong, vigorous and able to work every day. Nerv-Worth is the greatest medicine I have ever known and I will always keep it in my home. I gained four pounds in weight."

Impatience Our Menace

The impatience of people seems to be the greatest menace of the world today. In fact all our disturbances can be traced to impatience, all our grievances which, sooner or later, unless they are curbed lead to disorders, strikes and riots, are rooted in the impatience of classes and individuals.

Each group of workmen, using that word in its broadest sense, seem discontented if radical changes demanded by them and affecting them personally are not granted at once.

There seems no regard for the rights of fellowmen. It is not so much, either, a desire to harm others as it is to have their own demands granted right off.

There is either a disposition to ignore the burdens of officials who must safeguard the rights of all classes and all individuals in an honest endeavor to sustain the balances which are the security of the nation or a woeful lack of appreciation of just what is necessary to preserve government and order and protect life and property.

The Anglo-Saxon, while apparently impatient to attain his individual and class ends, will soon settle down to a realization that everything can't be done in a minute and that only by orderly processes and the exercise of patience is real and lasting reform attained.

We Anglo-Saxon people know that and will soon settle back again to the steady gait which has brought us so far along the right road.

Right now we are fed up with the impatience of war time. We haven't got back to normal, but we will.

Every individual should cultivate patience and forbearance.

Catching a Few

In spots the officials seem to be making some progress in their campaign against the profiteers and food hoarders. For the most part, though, the success is gained against the small dealers and speculators and in such widely separated localities and under such different surrounding conditions that there is no indication that "organized" profiteering has been wounded, or even discovered.

Of course we know, all of us, from school day times that "mighty oaks from little acorns grow" and it may be possible that one of these scattered acorns, uncovered in the rather blind searching may lead to the spreading oak of another kind which we are all anxious to discover and destroy, root and branch, but we can only hope so far.

Every little helps and if the several communities, enough of them, will go after the little fellows of local sphere of action and the national authorities will uncover and punish a few big ones we may "throw a scare" into the organized band if there is one.

We have always been a little doubtful if there was any real powerful nation-wide organization for profiteering in food. It seems rather a tacit agreement to keep on boosting prices simply because the people can and will pay.

What is the Reason

Among the many developments of the war and the war periods which people, generally, have been unable to understand is why the allied nations are so dilatory in sending assistance to the Russian forces, especially those under Admiral Kolchak, whose sincere patriotism seems to be conceded.

We have been reading for months now of the splendid struggle of the Kolchak forces against the Bolshevik armies, of the steady advance against the Red armies, victory after victory coming to the armies of the Russian people, until now it's the same old Russian story of war days. Defeat after brilliant victories because of lack of ammunition with which to either press the attack or defend themselves.

Just why the allied nations have been maintaining armies in Russia to guard great "mountains" of ammunition and supplies and then permit the Russian armies, whose cause they are backing, to march forward to certain defeat because of lack of fighting material, is not clear.

If the Russian people are to be aided in their struggle against Bolshevism why not now, when they have been winning victory after victory. If the Russian people are to be abandoned and forced to fight it out alone why, in the name of common sense, do we not bring our men home, ship our ammunition back or destroy it.

Of course the allies may have reasons for their course, but if they have it would be a great consolation to the people if they knew what those reasons were.

The "face of things" is getting on the nerves of people, especially when it is generally accepted that German officers are directing the Bolshevik armies and German money is financing the Red revolutionists.

POETRY FOR TODAY

MY CITY HOME.

I have no trees before my house
To cast their pleasant shade,
About my windows never twine
The blossoms God has made,
But there art roses, sweeter far
That on the pavements bloom—
The children of the city streets,
Whose laughter fills my room.

No hedges like a verdant wall
Adorn my dwelling place,
No fountains weave upon my lawn
A web of silver lace.
For me no robins greet the sun,
A fan of golden gleams,
But children play before my house,
Who keep me young with dreams.

What loneliness the streets would know
If children were not there!
Their joyous voices send a smile
Or lift away a tear.
The country house is rich, indeed,
With blossom, bird and tree,
But happy children at my door
Bring wealth enough to me!

MEXICO FACES HEAVY CLAIMS FOR DAMAGES

Mexico City, July 22.—(Correspondence of the Associated Press)—

Claims made by various nationals against the Mexican government for property damages suffered during revolutionary disorders amount at the present time to 18,259,539 pesos, according to a statement made public by the Department of the Treasury based on data secured from the Bureau of claims which is administering the adjustments. Spanish claimants head the list both in numbers and in damages asked; Americans rank sixth. The distribution of the claims and the amount of their claims is as follows:

Spanish, 8,132,927 pesos; Turkish, 3,168,590 pesos; German, 645,908 pesos; French, 282,841 pesos; Italian, 272,497 pesos; American, 129,914 pesos; Chinese, 38,692 pesos; Guatemalan, 20,000 pesos; English, 9,907 pesos; Dutch, 7,700 pesos; Austrian, 3,225 pesos; Mexicans, 5,537,364 pesos. The newspaper El Universal in commenting on these figures calls attention to the relative positions of American, British and French claimants and suggests that many of these nationals have refrained from making formal requests, intending to attempt reclamation through the diplomatic channels of their respective governments.

EASTERN GERMANY REMAINS QUIET

(By Associated Press)
Berlin, July 2.—(By Mail)—Eastern Germany will remain quiet despite the fact that some parts of it are included within the borders of Poland by the Peace Treaty, wires the Thorn correspondent of the Deutsch Zeitung. "It is," he adds, "the painful result of observations made on the spot." He declares that the government, contrary to its promises, has indignantly delivered up parts of the eastern provinces and that Prussia has failed to come to the aid of her crown lands.

The correspondent states that the

natives and the troops had determined to defend their hearths and homes to the very last, but the Governments change of front now put an end to those patriotic aspirations. He predicts a grave menace to the country as a result of the dissolution of troop units which have been accumulating there.

The motorist who fills his tank with "Liberty" gasoline knows he has miles of smiles ahead of him until the last drop is gone—and more miles, too. "Now I can see both near and far with one pair of glasses"

"The little rogue 'picked' my pocket! Yes, hid my reading glasses behind her and gleefully watched me fumble and search for them. How well I remember it! It made me realize how inconvenient it was to fuss with two pairs of glasses—one for reading, the other for distance—and caused me to invest in Kryptoks, which combine near and far vision in a single pair."

With Kryptoks you glance up from your book—just as Brown is doing in this picture—and see objects at a distance as clearly as you read the type on the printed page.

THE FAMOUS FISK JUBILEE SINGERS.

UP from Fisk University, Nashville, come the Fisk University Jubilee Singers, the greatest interpreters of the jubilee songs of the Southland now doing platform work. Records of their songs are in thousands of homes throughout America. Now the opportunity is presented to hear these talented artists in person.

It is a rare good fortune which makes them available for the Chautauqua on the closing day and their coming assures one of the finest programs which the Chautauqua affords. The songs of the Southern negro, correctly interpreted by those who know the spirit of them and their rhythm, and harmony, have a heart appeal which maintains them at a high point of popularity.

STUDENT OF EUROPEAN CONDITIONS TO RETURN TO CHAUTAUQUA WITH NEW LECTURE.

Dr. Frank Bohn, Sensational Success of Last Summer's Chautauquas, to Speak Again This Summer on European Conditions.

With "Revolutionary Europe" as the subject of his address, Dr. Frank Bohn, world-traveler and keen student of government and economics wherever he goes, comes to Chautauqua again this summer and it is freely predicted that he will repeat his great success of last summer, if he does not actually surpass it.

Most Americans are wondering why so much of Europe doesn't quit fighting and settle down to work. There are from twenty to thirty separate wars or revolutions going on in Europe now,—the exact number depends upon the day you make the count. These are bloody wars, most of them of considerable proportions. There is a reason for all things and it is important, as well as interesting, that we should know why these wars are going on. What does it all mean? We are confident Dr. Bohn can tell us and make it intensely interesting while he is doing it. He has been in Europe studying these matters most of the time since the close of his last summer's Chautauqua lecturing.

Dr. Bohn was interviewed recently by the editor of the New York Times and among other things he said: "The stupendous error which, with our pacifist and social-liberalism as mouthpieces, is now misleading opinion in Britain and America, including President Wilson and his fellow-conferenees,

is due simply to their false theorizing. They vainly conceive that Germany can jump from a feudal military autocracy into democratic socialism with in twenty-four hours. They seem to believe that Russia can leap over fifteen hundred years of evolution, from primitive agricultural communism into a totally utopian and impossible communist industrialism."

The Most Novel Melodramatic Comedy Ever Written

George M. Cohan's Greatest Comedy Success, "Seven Keys to Baldpate," Secured for Colt-Alber Chautauquas—To be Produced by Percival Vivian and His Company of Broadway Favorites

It is good news to Chautauqua goers to learn that the Colt-Alber Chautauquas have secured from Mr. George M. Cohan, noted theatrical producer and playwright, the right to produce at the Chautauquas for the coming summer Mr. Cohan's greatest comedy success, "Seven Keys to Baldpate," which he adapted from the book by the same name by Earl Derr Biggers, and which was one of the biggest play successes in New York City, where it enjoyed a run of nearly two seasons.

The play will be given a fine production on the Chautauqua platform since it has been put into the hands of Mr. Percival Vivian of Ben Greet Players fame, for several seasons stage manager of the Morosco Theatre, New York City, and during the past winter the creator of one of the three leading roles in Capt. Barnstater's delightful play, "The Better Ole," in support of Macklyn Arbuckle and DeWolf Hopper. Mr. Vivian has secured the original New York stage setting cut down and modeled to fit the Chautauqua platforms. The members of the cast have been carefully chosen from among artists direct from Broadway successes of last winter; the company will be under the management and personal direction of Mr. Vivian himself who will appear in the leading role—that of William Hallowell Magee, the novelist and hero of the story, a role admirably suited to Mr. Vivian.

The story of the play runs something like this: William Hallowell Magee, a writer of popular novels, has made a bet with the owner of Baldpate Inn, a summer hotel on a lonely mountain top, that he can write a best-seller in twenty-four hours. Magee goes to Baldpate Inn to write his story, and receives from the caretaker the key to the Inn—"the only key in existence," he is told. But no sooner has he started to work than a multiplicity of keys begin to unlock the door and he finds himself the hero of a stirring adventure, with grating politicians, murderers, a hermit ghost, a charming adventuress, and a still more charming (so Magee thinks) young woman newspaper reporter. Finally the owner of the Inn appears and says that it has all been a joke to prevent the writing of the novel. And just when you have decided that you have finally solved the many mysteries that are presented, you find that you are all wrong and the real solution is given by the last few words in the epilogue just as the curtain falls.

The play is guaranteed to make you laugh three hundred times and to mystify you until the very finish.

FARM NOTES

May Easily Prevent

Some Wheat Diseases
Some of the diseases that conspired with insect pest to reduce the Buckeye wheat yield this season may be easily prevented.

For example all that is necessary to control black rust is to destroy all the common barberry.

Seed treatment is effective for tinking smut, which seems to be increasing. The method most widely used in the sprinkling formaldehyde treatment. Directions may be had from your county agricultural agent. The modified hot water treatment is effective for all diseases which can be controlled by seed treatment including both loose and stinking smut. It is too difficult to be used for the general crop but should be used for the seed for a seed plot.

Seed treatment for wheat scab will doubtless kill the scab spores on the grain at the time of treatment and thus reduce losses to some extent. Recent studies seem to show that the scab parasite also attacks corn causing a stalk rot and lives over winter in corn stubble and stray stalks. In the spring new spores are produced which attack young buds of wheat, causing scab. One or more clusters die, turn white, and later pink, turn white, and later pink.

NEW AIRPLANE ROUTE SURVEYED

(By Associated Press)
Sydney, Australia, July 9.—(By Mail)—Survey of the route of the first section of the projected aerial service between Sydney and London was recently completed. The section extends from Sydney to Darwin, which is on the north coast of Australia and relatively near the Malayan Archipelago. The service will be carried

on by a Sydney company. From Darwin the route will cross the sea to the island of Timor proceed along the Malayan Archipelago to India and thence run to Bagdad or Port Said—probably the latter. From Port Said it will cross Europe to London. The survey of the second section of the route, from Darwin through Malaya to Delhi, is now going on.

It is expected that the first flight will be made within the next few months, and it is planned to have the proposed passenger and commercial services in full operation in about two years. If the company succeeds London will be reached regularly from here in 6½ days.

The Sydney Darwin section is 2,000 miles. But the survey party travelled about 4,000 miles in order to select the most satisfactory landing places or relay stations.
